PROFILE

Motivated Developer with a strong passion for learning and a dedicated work ethic, seeking opportunities to expand my experience and knowledge. Eager to contribute to a dynamic team and utilize my current skills to create efficient, scalable, and user-friendly applications, ultimately benefiting the success of the company.

WORK EXPERIENCE

Junior Developer • Full-time

Core1 Technologies Corp

August 2024 - Present

Quezon City, Philippines

- Developed a simple real-time messaging app using WebSockets for instant communication between support and clients.
- Set up CI/CD pipelines using GitHub Actions to automate deployment, ensuring seamless and consistent releases.
- Managed AWS EC2 instances and configured Route 53 for domain and routing management.
- Created a clean and user-friendly frontend using Tailwind CSS and ShadCN for a modern look.
- Used Docker to containerize the application, ensuring consistent environments across development and deployment.
- Ensured application security by implementing HTTPS, HttpOnly, JWT authentication, and CSRF tokens to safeguard user data and prevent vulnerabilities.
- Collaborated with the team in the overall development process, contributing to workflows and ensuring smooth integration across different parts of the application.

Full-stack Developer • Freelance

ICS Next Build Corp

April 2025 - June 2025

Quezon City, Philippines

- Developed a responsive and modern web application for a construction company, ensuring seamless user experience across devices.
- Built a dynamic content management system (CMS) that allows non-developers to easily update and manage site content.
- Implemented a user management system with authentication, role-based access control, and account settings.
- Designed and integrated modular UI components tailored to the construction industry's operational needs.
- Collaborated with stakeholders to gather requirements and continuously improve features based on feedback.
